# BAODING JIA

The Baoding Jia Animal Injection Fixed Frame is specially designed for common livestock such as cattle and sheep. It achieves safe immobilization of animals through a scientific structural design, preventing struggles and kicks during the injection process, ensuring the smooth operation of epidemic prevention work, while also reducing the risk of injury to staff.

## PRODUCT FEATURES

**01****SEPARATE LIVESTOCK:**

Avoid animals kicking, bumping, or jumping during injections to prevent staff from being trampled or injured by the animals.

**REDUCE STRESS  
PROTECT ANIMALS:**

The fixed frame structure conforms to the physiological posture of animals, with the neck support, abdomen support, and side panels all featuring rounded corners to avoid scratching the animal's skin.

**02****03****DURABLE AND  
CORROSION-RESISTANT:**

Adapt to outdoor environments.

**IMPROVE EFFICIENCY  
AND SAVE LABOR:**

One person can complete fixed and injection operations, significantly improving the efficiency of epidemic prevention work, especially suitable for centralized epidemic prevention scenarios in large-scale farms.

**04****05****EASY TO ASSEMBLE:**

Flexible mobility that balances practicality and comfort.
